

MEMO: this is an important connection to the PPSS (privacy, permissions, safety, security) elements that I always bring forward into my work with students. Interestingly, my influence was not boyd but Gee, Jenkins, and Hobbs (media people not in the field of open ed at all!)

Need to consider **BIAS** more and see if this connects to other participants? Is this about 'privilege' as a factor to OEPr?

MEMO: I love this story!

Quotable quote: "Let everyone paddle their own way. And it's OK. And they'll get there."
